

OSSTF/FEESO Celebrates Teachers Who Make Lives Better

On this World Teachers' Day, OSSTF/FEESO proudly joins the Canadian Teachers' Federation and Education International in celebrating the teaching profession.

Teachers are at the heart of public education. With dedication and professionalism, they inspire students, support families, and strengthen communities. Their lessons and encouragement leave a lasting impact, shaping lives far beyond the classroom.

Public education thrives because of their commitment, and our province is stronger because of their work.

Today, we honour teachers for their contributions and reaffirm our commitment to ensuring they have the respect, resources, and recognition they deserve. To all teachers - thank you for making lives better through your professionalism, your passion, and your love of learning.
