Appendix 4.1: Create Your Own Government Group Exercise

Scenario:

Imagine you are on a ship with 4000 people on your way to Jarabio in the Atlantic Ocean when you hit a bad storm. The ship went down but luckily you and all the passengers were able to swim to a large island in the middle of the ocean. You could be stuck on this island forever.

On the island, the following conditions exist:

- 25% of the population is under 12
- 25% of the population is 12-17
- 50% of the population is 18 and older

The natural resources on the island will allow you to survive as long as everyone on the island works for 6 hours a day.

Each person that does not work for 6 hours a day has their duties passed onto the rest of the population.

The Task

Your group’s task is to create the ‘ideal’ government for the island.

Instructions

1. Discuss and outline how decisions will be made on the island.
   - How will your island be ruled? (autocratic, democratic)
   - How will laws and decisions be established?
   - How will laws and decisions be enforced?
   - How will leaders be selected?
   - How long will a leader remain the island’s leader?
   - What powers and responsibilities will be given to the leader?
   - Create 5 laws for the island.

2. Discuss and outline how you will survive on the island.
   - How will work be distributed?
   - Who will work?
   - Will there be anyone that doesn’t work? Why?

3. Create a name and motto for your island that suits its beliefs and structures.

4. On chart paper draw an overview of your island, including the name and the motto.

5. On chart paper, outline how decisions will be made and how your island will survive (Questions 1 and 2).

Good luck! Your peaceful survival on the island depends on our system of order and government.
