Artificial Intelligence Advisory

To: Presidents and All Members

From: Gary Fenn, Interim Associate General Secretary – Professional Services

For Information

As artificial intelligence (AI) becomes increasingly prevalent in education, teachers and education workers should be aware of issues around its use which include privacy, accuracy, and ethical standards when considering using artificial intelligence in their work.

The attached Artificial Intelligence Advisory provides members with information around the use and risks of using artificial intelligence in their work.

For more information, please contact Shane Stagg (shane.stagg@osstf.ca).
